

MACHINING SOLUTIONS

Coulstock and Place's specialist engineering division offers an extensive range of bespoke engineering solutions.

REPAIR AND REFURBISHMENT

A comprehensive service is provided to all our customers including repair, refurbishment or remanufacture of components for the water, pet foods, industrial manufacturing, food, chemical and pharmaceutical industries.

DESIGN & MANUFACTURE

When you require a one off bespoke production part Coulstock and Place is here to assist. Our workshop is geared to small batch production and our experienced engineers can design and manufacture to specific customer specifications. We offer a minimum turnaround time and a 24 hour emergency service.

METAL SPRAYING

Metal spraying gives a high quality finish and has a range of advantages including long life protection against corrosion.

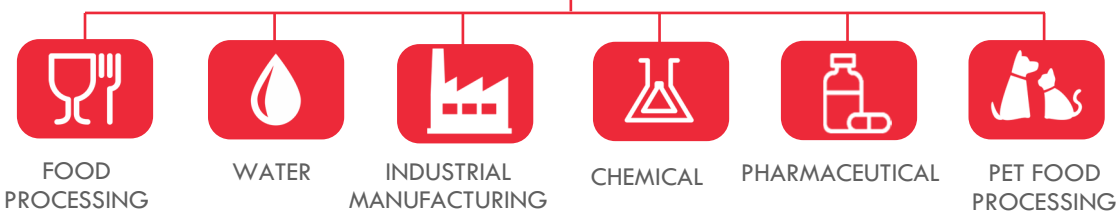

At Coulstock and Place we offer a 24 hour, 7 day a week breakdown service to help keep our customer's down time to a minimum. Facilities available include:

- Turning
- Milling
- Slotting
- Metal spraying (Metco 5P 2)
- Drilling
- Welding / Fabrication (Mig/Tig)
- Grinding

We have established strong partnerships with other service providers and can also offer the following facilities at competitive rates:

- Laser / Water jet cutting
- CNC turning / Milling
- Heat treatment
- Vertical / Horizontal boring

ELECTRIC MOTORS, REPAIRS & MACHINING SOLUTIONS

ABOUT US

For over 40 years Coulstock and Place has been a leading provider of cable management, motors and specialist machining solutions. The company has gained a wealth of experience by consistently providing quality products and services to a wide range of market sectors. Our commitment and high standard of customer service is paramount throughout each of our business areas.

Coulstock and Place is based in Doncaster and provides products and services throughout the UK. Flexibility is the foundation to our business and we are able to cater for one off orders to complex high volume business.

When you work with Coulstock and Place you benefit from a local friendly service with the reassurance and confidence that we're part of a larger multinational group. We are a wholly owned subsidiary of J & E Hall International and a member of the Daikin group.

MOTORS

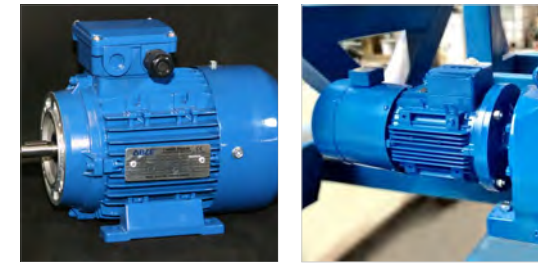

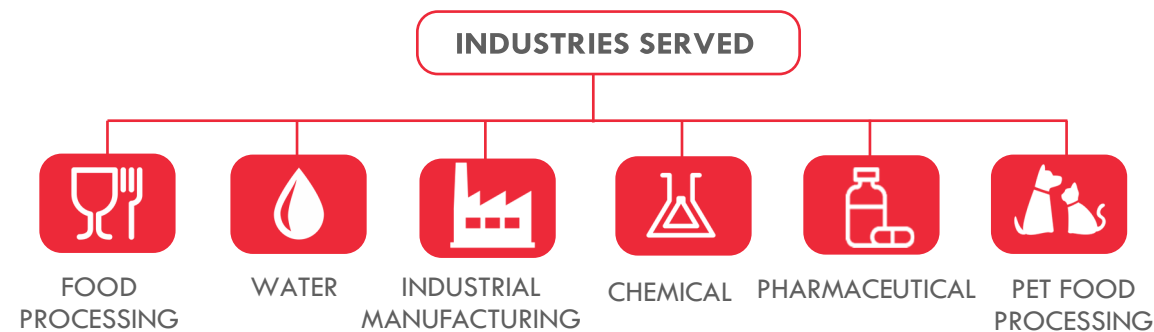

At Coulstock and Place we offer a complete range of motor services from new motors to motor rewinds and onsite capabilities.

Motor maintenance can essentially help reduce energy costs and time which subsequently can speed up production. Our dedicated team are happy to help. A comprehensive 24 hour service (7 days a week, all year round) is available to all our customers.

We offer a no obligation quotation, free inspection if required, technical advice, fully trained and skilled personnel, high quality materials, emergency breakdown service and free collection and delivery within a 40 mile radius.

On site capabilities

We fully understand that our customers sometimes require motor repairs onsite. That's why our dedicated onsite team have the capabilities to provide drive motor bearing changes in-situ.

NEW MOTORS, GEARBOXES & PUMPS

At Coulstock and Place we offer a comprehensive stock of electric motors from 0.18kW to 37kW in 2&4 pole and single phase motors up to 3kW. We are also able to supply a range of motor control systems, magnetic brakes and inverters. Our experience and long established reputation makes us the first choice partner for all your motor requirements.

Customers benefit from:

- Comprehensive stocks
- Rapid delivery
- 24 hour service
- Unrivalled levels of expertise
- Dedicated customer service team

We stock the new IE2 and IE3 series of energy efficient motors which range from 0.185kW to 315kW in foot or flange mount. We can also supply EX flame proof motors for hazardous areas. Coulstock and Place provide a wide range of manufacturer's electric motors including **AMTEC, ABB, BROOK, REMCO, BALDOR and GAMAK**

We also supply a selection of new gearboxes including **YILMAZ, SEW EURODRIVE, FLENDER, FENNER, DAVID BROWN, and RENOLDS**

MOTOR REWINDS & REPAIRS

At Coulstock and Place we have an experienced motor rewind team who are fully trained to ensure we always deliver high standards. Our expertise, along with continuous investment in capital equipment has proved invaluable to our customers.

Every aspect of the motor repair is carried out in house at Coulstock and Place. We have an extensive range of equipment available to provide all aspects of electrical and mechanical repairs and refurbishments.

- 24 hour emergency service
- Free inspection and quotation
- Free collection and delivery (40 mile radius)
- AC, DC slip ring repairs and rewinds to 500kW
- Atex repairs on flameproof motors
- Pumps, fans and gear box repair
- Transformer rewinds and conversions
- Clutch coils, solenoids and break coils
- Motor conversions (voltage, speed and frequency)
- Dynamic balancing
- Site services

Motors can be tested using 4 wire resistance test equipment and 6kV baker test. We can also carry out core loss testing of stators and rotors to provide root cause analysis.

We also provide CABLE MANAGEMENT solutions, visit www.coulstockandplace.co.uk for more information
